## Hotel Principe Savoia

Piazza della Repubblica 17- 20124 Milan

Dominating the Piazza della Repubblica the Hotel Principe di Savoia is a luxury five-star hotel that has been the natural home for international travellers and cosmopolitan society since the 1920's. Its imposing neoclassical facade hides one of the world's most luxuriously appointed hotels. With its superb location, superlative facilities and outstanding standards of service, the Hotel Principe di Savoia offers a winning combination of old World luxury combined with the latest innovations in technology and design. The hotel's grand main entrance is a welcoming gateway to the hotel's 401 richly appointed rooms and suites, and to an unforgettable stay in Milan. The Hotel Principe di Savoia offers a vast array of services as would be expected of Milan's oldest and most well-renowned five-star hotel. Each of the 401 spacious guest rooms and suites at the Hotel Principe di Savoia is decorated and furnished to reflect the warm and elegant atmosphere of 19th-century Lombard interior design combined with the unobtrusive integration of modern technology. Wainscote wood panelling frames wall-coverings of precious damask and the furniture is inspired by the creations of the celebrated Maggiolini, so each room conveys a note of elegance and refinement. The bathrooms are spacious with marble tiling in soft colors and provide soft bathrobes and a telephone outlet.

The rooms are perfectly soundproof and feature wireless high-speed Internet access, air-conditioning and thermostatic heating control, a refrigerator bar and a direct dial telephone. All our bedrooms have large opening windows allowing fresh air to circulate. Occupying ten floors there are 269 rooms and 132 suites to choose from.

Three basic interior décor themes prevail:

Venetian-style rooms, Florentine-style rooms and Neo-Classical rooms.

The design inspiration and key feature of every bathroom is the wall mosaic – a contemporary vision of classical Italian design. Frosted and clear glass panels work in tandem to provide both privacy and the illusion of space. Instead of tiles, entire slabs of Bianca Lasa, the premier white marble, have been used to convey a sense of expansiveness. Redesigned traditional rosewood or walnut vanities have been contemporized with boldly coloured glass tops.
